

Minutes
Undergraduate Academic Affairs Committees 5/6/21
UAAC Sub-Committee Meeting Minutes 5/13/21

Call to Order: The Associate Provost, Dr. Robert Wood, called UAAC meeting to order at 9:04 a.m.

Reports from Committee:

The proposed roadmap permits four graduate courses to be counted toward undergraduate requirements of the BS in Mathematics.

The Substitutions/Assessment for BS Mathematics + MA Mathematics Accelerated Program will be officially voted on by CAS Faculty Council on the afternoon of May 6th, 2021, when approved, this proposal will be sent to UAAC sub-committee for approval.

Approved Math ABM by UAAC Sub-Committee on 5/13/21

Information Ellen Crowell and Jay Haugen– University Core – Today all the students who will be part of the University Core pilot will be contacted. We worked with representatives from every college. Those students who are part of the core pilot are being contacted and we have worked hard to understand who is in and out and who is to be excluded, with adapting a new core, there could be some issues and we do not want to open this up to every student who wants to be on it.

SLU's new University Core launches for all incoming students in Fall 2022. SLU is running a small Core pilot in the Fall 2021 semester, with approximately 10% of the 2021 incoming student body participating. Following the completion of the FA21 Core Pilot, SLU will finalize plans for when and how eligible students will be invited to "opt-in" to the new University Core for the 2022-23 launch year. Additional guidelines about opting in to the new Core will be available early in the Spring 2022 academic term

Draft Policy Link Below:

<https://sites.google.com/slu.edu/university-core-pilot/advisor-resources/new-core-opt-in-guidelines?authuser=0>

A limited number of students entering SLU Summer/Fall 2021 or later will be determined eligible to opt-in to the New Core.

Please note: **NO Current Students (entering SLU before Summer/Fall 2021) will be eligible.**

The University will decide the exact parameters for who can opt-in to the New Core after completion and assessment of the Fall 2021 Core Pilot (announcement on opt-in forthcoming Spring 22).

There will likely be an "earned hours" maximum.

If students are allowed to opt in, their previous core coursework will be mapped to the new requirements

Question:

Regarding core adoption and the road maps does our core requirements need to be integrated into the core maps?

Response:

NO – Jay, sample plans. No free for all, we need to provide guidance to the students, it seems as we are making it more complicated if we do not integrate to the students. Rob said you should be looking at the road maps, nursing is not part of the pilot.

Jay Haugen:

Please review the policy on Independent and Directed Study Courses and we will discuss at the next UAAC meeting
